

IQBAL APRIAND JUARTONO

Web Developer | UI/UX Designer | Graphic Designer

iqbalapriand@gmail.com | iqbalapriand.my.id | linkedin.com/in/iqbalapriand

ABOUTs

I'm an Informatics student at Gunadarma University with hands-on experience across UI/UX design, graphic design, and web development. I enjoy working at the intersection of design and code — crafting interfaces that look great and work well, from initial wireframes in Figma through to production-ready front-end implementation.

EDUCATION

Bachelor of Informatics · Gunadarma University 2023 – Present
GPA: 3.67 / 4.00 · Relevant courses: UI/UX Design, Graphic Design, Data Structures, AI, Databases, Fullstack Developer

WORK EXPERIENCE

UI Designer — Remote Internship · Harisenin.com 2025 · 3 months

- Completed an intensive UI design program focused on interface design, design systems, and Figma prototyping.
- Designed multiple UI screens and components following a structured design process from brief to final handoff.
- Collaborated with peers and mentors in critique sessions to iterate and refine design decisions.

Web Developer & UI/UX Designer & Graphic Design (Freelance) · Project-Based 2022 – Present

- Built and shipped responsive web apps using React.js and Next.js with REST API integration.
- Handled UI/UX end-to-end in Figma — from wireframes and prototypes to design systems — then implemented directly in code..
- Delivered branding, graphic, and front-end projects for clients across multiple platforms including Sribulancer.

Computer Lab Assistant · VM Lepkom Gunadarma 2024 – Present

- Tutored undergraduate students in web development (HTML, CSS, JavaScript, MySQL, Golang) and provided IT support during lab sessions.
- Contributed to building and maintaining internal web projects within the lab using fullstack development practices.
- Assisted in preparing lab materials and documentation to support structured learning for each session.

Creative Designer & Web Developer · OpenSea Company 2020 – Apr 2021

- Created NFT artwork using Aseprite and designed social media feed visuals for NFT project promotion.
- Built responsive landing pages in HTML, CSS, and JavaScript to support NFT collection launches.
- Managed end-to-end visual output for NFT projects, from pixel art creation to branded digital assets ready for marketplace listing.

PROJECTS

SiaGas — PKM-KC — IoT & AI Gas Leak Detection System · PIMNAS 2025 Finalist

- Designed full UI/UX (flows, wireframes, hi-fi prototypes) for mobile app and web dashboard; produced branding and pitch assets for the national final.

Nutrify — *Food Intelligence Web App · Scholarship Coding Camp DBS Foundation x Dicoding 2026*

- Built a fullstack web app that scans food images using AI (CNN) to identify food and display nutritional info, with personalized health recommendations based on user conditions (diabetes, hypertension, obesity, etc.).
- Developed frontend (React.js) and backend (Express.js) with REST API integration to ML model, AI Consultant via Gemini API, and a dashboard for tracking nutrition history and progress.

AI Business App for UMKM — *International Business Plan Pitch · Top 3 & Best Presentation*

- Led end-to-end product design for an AI-powered business planning app — UX research, personas, prototypes, UI design — earning Top 3 internationally.

Web Projects Applications — *Personal Projects · HTML/CSS/JS & React.js, Express.js, MySQL*

- Developed multiple CRUD apps (inventory, task tracking, data management) in vanilla JS and React.js with responsive UI.

Competition UI/UX Projects — *National & Regional Design Competitions*

- Designed and delivered multiple mobile app products end-to-end in Figma — covering UX research, user personas, user flow, wireframing, and high-fidelity UI prototyping. Competed across various national and regional competitions, winning 1st Place Technofair 12.0 (2025), 3rd Place Find IT UGM (2026), and Top 10 INFEST & IDENTITAS (2024).

Game Development — *Unity & Blender (Campus Project)*

- Developed a simple 3D game as part of a campus project using Unity as the game engine and Blender for 3D asset modelling. Handled game mechanics, scene design, and visual asset creation from concept to playable build.

ACHIEVEMENTS

- **Top 3 + Best Presentation** – International Business Plan Pitch by Gunadarma.
- **PIMNAS Finalist 2025 Universitas Hassanudin** – PKM-KC
- **3rd Place UXCompetition** – Find IT Gadjah Mada University 2026
- **1st Place UI/UX Technofair** – 12.0. 2025
- **Top 10 UI/UX** – INFEST Tuntasplace. 2024
- **Top 10 UI/UX** – IDENTITAS 2024
- **4th Place Competitive Programming** – Code Fest I/O Gunadarma 2024
- **Participant UXVidia** – Arkavidia ITB 2026
- **Participant Competitive Programming** – Arkavidia ITB 2025

ORGANIZATIONS & VOLUNTEERING

Creative Designer – Bincang Energi ID

Dec 2025

- Designed social media content and visual feeds, handled content briefing, and produced creative assets aligned with the organization's communication needs.

Head of Creative Designer – HAKARSA

2024 – 2026

- Started as a Creative Designer producing social media visuals and content briefs, then promoted to Head of Creative Design — overseeing the design team, setting visual direction, and maintaining brand consistency across all platforms.

Creative Designer – FTI Korsa Gunadarma

2023 – 2024

- Produced social media content, managed design feeds, handled content briefing, and created video editing assets to support faculty organization activities.

Member – GDGOC Gunadarma

2023 – Present

- Actively participated in Google Developer Groups on Campus events, workshops, and programming classes, deepening technical skills in software development and the Google ecosystem.

Vice Lead & Core Team Creative Designer – I/O Gunadarma

2024 – Present

- Joined as Core Team Creative Designer, producing visual content and representing the organization in competitive programming training and competitions. Promoted to Vice Lead, now overseeing creative direction while actively participating in CP events and community programs.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS

Backend & DB: Node.js, Express.js, REST APIs, Firebase, MySQL, SQLite, Supabase, JWT

Design: Figma, Photoshop, Illustrator, Canva, After Effects | UI/UX, Wireframing, Prototyping, Design Systems

Tools: Git, VS Code, Postman, Notion, Figma, Capcut

Languages: Indonesian (Native) | English (TOEFL Predicted: 575)
